Subject: Protect Children's Television!

FCC Commissioner Jonathan S. Adelstein

Dear FCC Commissioner Jonathan S. Adelstein,

Media mergers have already gone too far in the United States. Companies like AOL/Time Warner have a huge potential for serious conflicts when a magazine reviews a movie and its soundtrack and all three products are emanating from the same corporate source.

Please do not allow any further monopolization of news entity ownership. Specifically, do not allow newspapers, television stations, and radio stations in any market to be owned by the same company. Independent ownership of news media entities is the public's only guarantee of unbiased and unfettered news reporting -vital in a democracy.

The FCC must consider the unique needs of children in its upcoming rulemaking on broadcast ownership rules

Children consume almost five and a half hours of media per day. Research has shown that media, particularly television, play a unique and powerful role in children's development.

The FCC should consider how further relaxation of media ownership rules would impact children's programming. Deregulation may reduce competition, increase commercialism and result in less original programming for children.

Before making any regulatory changes to existing media ownership rules, the FCC must consider how children will be affected.

Sincerely,

Timothy Cate 201 S. Mountain Avenue Ashland, Oregon 97520

Mr. Adelestein:

RE 02277

THe US is supposed to ba a democracy. By allowing 7 corporations to own most of the tv & radio stations, and major newspapers, you are canceling out our news sources and promoting censorship. These businesses act out of self-interest, which is not in the best interest of this country. The media wouldn't cover FCC hearings. That tells you how bad things are. My AOL service didn't permit me to submit my message to your main site.

Subject: diverse media

Mr. Copps,

I do not think ... at the public's interest will be served by further concentrating media ownership. I also do not believe that there is real diversity presented now. For instance, I have never heard a station ask a pacifist for their opinion on current events. I rarely hear environmental activists on television, or for that matter, stories about the environment are rarely presented. I would like to see the FCC take determined action to create strong, fair, and diverse media options for Americans.

Thank You, Andru Eron From: connerrighter@yahoo.com
